Joint Purchasing Corporation and Amerinet Announce Change to GPO Management Services

FOR IMMEDIATE RELEASE
New York, NY

Joint Purchasing Corporation (JPC) and Creative Source Concepts (CSC) announced a change to the management of their group purchasing contract portfolio that effective March 2, 2009, JPC and CSC will manage and market their own portfolio of services.

Since 2004, JPC and CSC maintained a relationship with Vector, formerly an Amerinet shareholder purchased by Amerinet in 2006. Based in Providence, RI, Vector managed much of their contract portfolio, including the value-laden contracts of MAGNET, (Mid-Atlantic Group Network of Shared Services Cooperative).

“JPC is pleased that the relationship with Amerinet provided continued value for the participant facilities in JPC and CSC group purchasing programs”, stated Christopher Moore, president of JPC and its subsidiary CSC. “After all is said, patient care and cost savings to the facilities, meets the most important needs of all,” Moore stated.

Moore continued, “Amerinet, one of the most innovative and effective healthcare group purchasing organizations in the United States, provided the bridging strategy to ensure that JPC and CSC could re-structure for the support and expansion of its mission of providing contracts, education programs and services. We look forward to continuing to meet the needs of our more than 3500 participant facilities.”

For more than 85 years, JPC and its affiliates have been focused on developing and providing meaningful services for our customers. Being flexible, remaining customer focused and providing real value and to create new markets, particularly through partnering with integrated delivery networks.
