**Medical Simulation Corporation Signs Agreement with
Mid-Atlantic Group Network of Shared Services (MAGNET)**

DENVER, June 2, 2010 — Medical Simulation Corporation (MSC) announces a vendor agreement with MAGNET Cooperative, one of the largest non-profit group purchasing organizations (GPO) in the U.S., under which MSC's simulation-based education products and services will be available to MAGNET participating healthcare facilities.

MAGNET is one of the oldest, largest, and most experienced shared service organizations in the United States, representing a membership of over 1,000 hospitals and 5,000 clinics and physician practices. MAGNET members will benefit from MSC's simulation-based training products and services, which have demonstrated the ability to significantly improve the competence and confidence of healthcare providers in delivering high-quality patient care.

MSC products and services available under the agreement include:

- Endovascular simulator and curriculum.
- Quality Initiative curriculum focused on early identification and treatment of high risk conditions such as Sepsis, Stroke, Central Line Infections, Heart Failure, and more.
- Train-the-trainer programs and training tool kits for facilities with their own simulators and educators.
- Turn key education services to fulfill short-term or part-time educational initiatives.
- Online curriculum, including metrics reports.

"MAGNET welcomes Medical Simulation Corporation as a vendor partner," says Steven R. Duke, Vice President and COO, MAGNET Cooperative. "MSC's training and education products and services will provide our participating healthcare facilities with evidence-based solutions for meeting the challenging and changing healthcare environment."
